ISPE®

2017 TRAINING

A well-trained staff is critical to meeting global cGMP regulations. Training can mean the difference between successful operations and regulatory violations.

Our Courses:

- Have Measurable Learning Objectives
- Provide an In-Depth Understanding of "How" and "Why"
- Use Lectures, Group Exercises, Case Studies, and ISPE's Guidance Documents
- Provide You With Tangible "Take-A-Ways" For Immediate Application on the Job
- Leverage the Expertise of ISPE's Global Subject Matter Experts
